

The Foundation for Blood Research (FBR), an independent, nonprofit, clinical research laboratory, established in 1973, is seeking applications for a Clinical Laboratory Director. The Clinical Laboratory Director is responsible for the overall direction, management, and administration of FBR's laboratories and research program. FBR has an affiliation agreement with Dartmouth Medical School (DMS) and a qualified candidate would be eligible for a DMS appointment.

### **Essential Duties and Responsibilities**

- Clinical Laboratory - Directs the activities of three CLIA certified laboratories in the areas of prenatal screening, immunology and molecular genetics.
- Publications – Provides oversight and management of peer reviewed research publications for FBR staff including journal publications, books, manuscripts and presentations at scientific meetings
- Education – Attends conferences and professional meetings regularly; oversees scientific staff development; manages scientific seminar participation both internally and externally for FBR staff; and maintains membership in professional organizations.
- External Role – Serves as FBR's representative in the scientific community, both locally, nationally and internationally. Solicits and manages collaborations and partnerships for FBR, and interacts regularly with FBR's clients on research matters of mutual interest.

### **Education and Experience**

- M.D with AP/CP Board certification or PhD with ABCC certification, desired with a minimum of five years experience as a clinical laboratory director. Must meet CLIA Laboratory Director requirements.

To apply, please submit a letter of interest, curriculum vitae and three professional references to: Jane Sheehan, Esq., President and CEO, Foundation for Blood Research, P.O. Box 190, Scarborough, ME 04070-0190. Alternatively, email the above information to: [jsheehan@fbr.org](mailto:jsheehan@fbr.org).

FBR is a 501 (c) (3), non-profit organization, located minutes from sandy beaches, great skiing, and Maine's largest city (Portland). Boston is just 1½ hours by car. For more information, please visit our web site at [www.fbr.org](http://www.fbr.org).
