UW Medicine
SCHOOL OF MEDICINE

The Department of Laboratory Medicine at the University of Washington and Seattle Children's Hospital seek an Assistant/Associate Professor for the position of Co-Director of Cytogenetics at Seattle Children's Hospital. Candidates must have an MD, PhD, or MD/PhD degree, and should be certified or eligible for certification in Clinical Cytogenetics, or Clinical Molecular Genetics, or an equivalent board. Highly desirable is the ability and interest to introduce advances in molecular technologies into the Clinical Cytogenetics Laboratory. The successful candidate should possess strong interpersonal skills and will be expected to participate in education of trainees at all levels, as well as clinical or translational research. The Seattle Children's Hospital Cytogenetics laboratory performs post-natal pediatric testing (constitutional and acquired), including a high volume of array CGH. It is an integral component of a multi-faceted clinical laboratory staffed by 14 doctoral staff.

Seattle Children's is the referral hospital for the Pacific Northwest. Its clinical and teaching programs cover the Washington, Idaho, Montana, and Alaska. Likewise its recreational programs extend well past the superior quality of life in Seattle to the beauty of the oceans, lakes, and mountains of the Northwest.

Applicants should send their CV and a list of at least four references to Dr. Karen Tsuchiya, Dept. of Laboratories-A6900, Seattle Children's Hospital, 4800 Sand Point Way NE, Seattle, WA 98105.

This appointment is without tenure and is contingent on budgetary approval. The UW is an Affirmative Action/Equal Opportunity Employer. University of Washington faculty engages in teaching, research, and service.
