

Investigative Hematopathology Position -- The Department of Pathology at the University of Pittsburgh is seeking an academic investigator in the Division of Hematopathology. The position will include appointment in the Department of Pathology at the University of Pittsburgh School of Medicine as Assistant, Associate, or full Professor as appropriate for the candidate. The candidate must have an M.D. and/or Ph.D. with appropriate board certification/eligibility/training; experience in a large hospital-based service is beneficial. Applicants are expected to have or develop an externally-funded research program. Research may be in basic, clinical or translation science or in informatics. Area of research need not be linked to clinical duties. The Department will provide generous funds for transition or establishment of the research program. Clinical responsibilities, within a Division with eight other hematopathologists, will include limited attending duties in a large integrated multi-hospital hematopathology service covering all aspects of cutting edge morphologic, flow cytometric, laboratory and molecular diagnoses; research time will be protected. Other duties will include teaching medical students, residents, and fellows in hematopathology. Academic rank, tenure and salary will be commensurate with experience. Eligibility for medical licensure or practice in Pennsylvania is required. Those wishing to be considered may forward their CV in confidence to Alan Wells, M.D., D.M.Sc, Vice-Chair for Laboratory Medicine, Department of Pathology, South Tower 5929, 200 Lothrop Street, Pittsburgh, PA 15213 (wellsa@upmc.edu) or Steven H. Swerdlow, MD, Director, Division of Hematopathology, UPMC-Presbyterian, Room C606, 200 Lothrop Street, Pittsburgh, PA 15213 (swerdlowsh@upmc.edu).
