

Yale University

Department of Laboratory Medicine
Clinical Chemist Physician-Scientist

The Department of Laboratory Medicine at the Yale University School of Medicine seeks a physician-scientist Assistant Professor for a full time position in the Clinical Chemistry section. The successful candidate would be expected to spend approximately 70% time in investigative work in the area of neurosciences with an emphasis on metabolomics or proteomics and devote approximately 30% effort to clinical work in the Clinical Chemistry Laboratory at Yale-New Haven Hospital. Candidates with expertise in mass spectrometry, and with an established investigative program in an area that builds on existing strengths within the Yale Medical School are preferred. Candidates must be MDs or MD/PhDs who are Board certified/eligible in Clinical Pathology. Applicants should send a curriculum vitae and the names of three references to:

Peter Jatlow, M.D.
c/o June Fisher
Department of Laboratory Medicine
Yale University School of Medicine
333 Cedar Street, P.O. Box 208035
New Haven, CT 06520-8035

Or e-mail to june.fisher@yale.edu

The deadline for applications is March 1, 2010.

Yale University is an equal opportunity/affirmative action employer. Underrepresented minority and female applicants are encouraged to apply.
