

Molecular Pathology Faculty Position

Department of Pathology and Laboratory Medicine
Weill Cornell Medical College and NewYork-Presbyterian Hospital

The Department of Pathology and Laboratory Medicine at Weill Medical College of Cornell University is seeking a full-time Molecular Pathology faculty member to join the Laboratory Medicine Division. Candidates of any academic rank or faculty track with expertise in molecular genetic pathology are encouraged to apply. The Molecular Pathology Laboratory performs all types of molecular tests except molecular hematopathology testing, which is performed in a separate laboratory within the department. Molecular testing is the highest growth area of the large clinical laboratory operations of the NewYork-Presbyterian Hospital-Weill Cornell Medical Center. MD applicants must be board-certified or eligible by the American Boards of Pathology and Medical Genetics in Molecular Genetic Pathology, PhD applicants must have appropriate experience and certification, and all candidates must be eligible for unrestricted licensure in New York State. The successful candidate will share attending physician and administrative responsibilities within the Molecular Pathology Laboratory, participate in basic, clinical or translational research, and teach and supervise residents and medical students, as appropriate for the interests and qualifications of the candidate. A cancer research focus is ideal for candidates seeking a tenure track research position. Interested applicants should forward curriculum vitae, statement of interests, and the names and contact information for three references.

Please address all inquires to:

Debra G.B. Leonard, MD, PhD
Vice Chair for Laboratory Medicine
Department of Pathology and Laboratory Medicine
Weill Cornell Medical College
1300 York Avenue, Mailbox 79/Room F715
