

Academy of Clinical Laboratory Physicians and Scientists Application for Membership

Name: _____ Degrees: _____ Date: _____

Telephone number: _____ FAX number: _____

E-mail address: _____

Address at work: _____

_____ Zip Code: _____

University Affiliation: _____

Current Academic Rank: _____

Educational Activities (Please check all applicable categories):

- Undergraduate Education Resident Training
 Medical Student Education Post-doctoral Fellow Training

Special Areas of Interest and Competence (Please check your major areas of interest. They will be indexed by our computer system for listing in the ACLPS Directory.):

- Clinical Chemistry Hemostasis/Thrombosis Microbiology/Virology
 Genetics Immunology Molecular Pathology
 Hematology Medical Informatics Transfusion Medicine

The two members listed below will serve as sponsors:

1. _____ 2. _____

Signature of applicant

Please enclose your current CV with this application.

Please mail completed application to Daniel E. Sabath, M.D., Ph.D., University of Washington, Department of Laboratory Medicine, Box 357110, 1959 NE Pacific St., NW120, Seattle, WA 98195-7110 or FAX to (206) 598-6189.

FOR OFFICE USE ONLY	
Application completed:	CV attached:
Sponsor #1 received:	Sponsor #2 received:
Committee action:	Voted into membership:

Academy of Clinical Laboratory Physicians and Scientists

The Academy of Clinical Laboratory Physicians and Scientists was organized on November 12, 1966, in Bethesda, Maryland. The Society holds an annual general membership meeting.

According to Article IV of the organization's Constitution, "Members of the Society shall be physicians, scientists and educators, primarily engaged in teaching, research and service in academic laboratory medicine." Membership is not limited to pathologists but is open to other physicians and scientists engaged in clinical laboratory work and to educators both in medicine and medical technology.

Many of the members of ACLPS are also members of other organizations for pathologists, other physicians and scientists. The Society was formed in response to a conviction among the founding members, that no national organization of physicians and scientists existed which could speak forthrightly and authoritatively about the needs and future developments in laboratory medicine in medical schools and other educational institutions.

The objectives of the Academy of Clinical Laboratory Physicians and Scientists are stated in Article III of the Constitution:

1. To encourage and advance the highest standards of education in laboratory medicine in medical schools and related curricula.
2. To encourage and promote the highest standards of resident training and postgraduate education of physicians and scientists in clinical pathology at universities and medical schools.
3. To encourage and promote the highest standards of service, education and research in academic laboratory medicine.

Requirements for membership are described in Section 3.1 of the Bylaws: "Candidates for membership shall be nominated by two members, who by means of sponsor form, shall adequately describe the qualifications of each candidate in terms of the aims and objectives of the Society. A curriculum vitae shall be a part of the application and it should include information concerning the candidate's dedication to and accomplishments toward the advancement of teaching and scholarship in laboratory medicine." Applicants must have attained at least the academic rank of Assistant Professor or its equivalent.
